

# RUSHWORKS NEXTGEN AUTOMATION ENGINE

## SIGNAL I/O

internal switching between input and file playback

- **Video Pass-Through**  
(news, production studio, satellite IRD output)
- **File Playback**  
(programs, commercials, promos, IDs)

The signal workflow supports output to multiple media portals.

## SCHEDULING

- Time-of-Day Events
- Triggering Instructions: DTMF, GPI, GPO, Manual
- AUTO-LOOP (repeating folder content)
- AUTO-FILL (folders with specific files to 'pad' short Events)

## SOFTWARE

- Scheduler (playback and encode)
- Playlist creation and editing
- Multi-layer graphics compositor
- Router/Switcher control
- Encoding
- File Trimming/Segmenting
- As-run log
- Data file prefetch from NAS
- Traffic Import Optional (BXF compatible)
